

Aabsolute Inc. Home Inspections

Providing the Aabsolute best inspection for the most reasonable price is the goal of a local "one call" inspection business.

Aabsolute Inc., which is located at 4900 W. Dover Road in Lake, provides residential and commercial inspections, water quality testing, well and septic inspections, air quality testing, mold testing and radon testing. The company provides services to individuals and companies statewide.

Aabsolute Inc. is a registered federal contractor for FHA, VA and Rural Development. Aabsolute Inc. also was a founding member of the Michigan Association of Home Inspectors. Aabsolute Inc. meets and exceeds industry standards ensuring a level of quality that cannot be

matched by other businesses.

"When it comes to property as crucial as your own home, don't settle for estimates from companies interested in performing other services," said Robert, the company's lead inspector. While the inspectors are not trying to earn business as a contractor or builder during the inspection, Aabsolute engineers are selected for their engineering and construction backgrounds. The professionally trained inspectors receive ongoing technical updates on the latest developments in the construction and maintenance fields. The inspectors have technical competence, patience, concern and pay attention to detail so as to give the consumer the best inspection possible.

"We provide honest, straight forward and knowledgeable inspections. There is no need to schedule separate inspections for separate items. We do it all," Robert said. "We provide every service or testing option available or required making us a 'one call' inspection service."

Aabsolute Inc. was founded in 1996. "Our goal was to provide employment and offer a quality service while supporting our local businesses and staying involved in our community," Robert said.

Besides having local employees who have raised their families in the area and supported various local causes, Aabsolute Inc. supports the American Legion and Disabled Veterans of America.

The staff that is available to serve area residents includes Robert; Tim, an additional inspector; and a fully staffed office.

All areas from the foundation/crawlspace/basement to the roof and rafters are covered in the inspections. Well, septic, furnace, plumbing, electrical, cooling, out buildings, the interior and exterior all come standard with inspection packages.

Engineer's certification, water quality screening, air quality screening, radon and mold testing all are available upon request.

Robert said an advantage of calling Aabsolute Inc. is that a customer can finalize their purchase with complete confidence after the inspection.

Aabsolute Inc. accepts major credit cards and paypal. A 'pay at close' option also is available. This allows customers to make payment to Aabsolute Inc. at the close of the home mortgage transaction.

Adding an appraisal service is one of the future goals of Aabsolute Inc.

Aabsolute Inc. is open from 8 a.m. to 6 p.m. The company can be contacted at (989) 588-4176 or toll free at 800-327-4855. For additional information, the website is www.aabsoluteinc.com and staff can be contacted by email at aabsoluteinc@gmail.com
